

JETDOCK[®]
Drive-On Docking

DELUXE FENDER MOORING SYSTEM

**SOFT FENDERS PROVIDE
NON-ABRASIVE INTERFACE**

THE DELUXE FENDER MOORING SYSTEM IS A SAFE, NON-ABRASIVE ATTACHMENT OF THE JET DOCK SYSTEM TO A VARIETY OF EXISTING FLOATING DOCKS, STATIONARY DOCKS, AND SEAWALLS. UTILIZES TWO FENDERS AND SPRING LINES TO SECURE THE JET DOCK TO YOUR EXISTING STRUCTURE. ALL HARDWARE IS STAINLESS STEEL, DESIGNED TO GIVE YOU A LIFETIME OF CAREFREE USE.

**SPRING LINES KEEP
DOCK STABLE AND SECURE**

DELUXE FENDER MOORING SYSTEM INSTALLATION

Mooring and Accessory Options

Deluxe Fender Mooring System (#A207)

Kit includes 2 fenders, lines and all stainless steel hardware required for mooring the Jet Dock Systems to an existing structure

Wide "D" Shackle with Tuck Point Fastener (#A270)
Can be secured to the perimeter of the Jet Dock to provide an additional point for mooring of the dock or a craft.

Jet Dock Tool Kit (#A331)
Used for final assembly of larger docking systems.

Standard Fender (#A205)
Used to fend off a Jet Dock from an existing structure or to fend off craft along side the Jet Dock.
